
Policy: Covid-19 Policies and Procedures

Adopted by Board of Park Commissioners: May 2022

Throughout the entirety of the Covid-19 pandemic, the BPRYCS Department remained committed to delivering high-quality essential services and facilities to Bristol families. Emergency Covid-19 policies and procedures were developed in conjunction with the Bristol-Burlington Health District and City of Bristol policies to establish procedures to create an environment that reduces the chance of Covid-19 exposure in BPRYCS programs, services and facilities. The Covid-19 Policies and Procedures include guidance and direction on the following:

- Face Coverings
- Staff Procedures
- Recreation Program Procedures
- Spectator Expectations
- Aquatics Facility Guidelines
- Youth & Community Services Appointment Protocol
- Counseling Services
- Youth Enrichment Programs
- Staff Protocols for Covid-19 screening
- Communications Policies

While Covid-19 cases appear to be on the decline with state mandates and policy restrictions lifted, the department recognizes the need to stay prepared for future policy modifications as circumstances change. Emergency policies may be reinstated at the direction of local, state, and federal changes.
